DEPARTMENT OF COMPUTER SCIENCE AND ENGINEERING
UNIVERSITY COLLEGE OF ENGINEERING (A)
CLASS TEST -I
ARTIFICIAL INTELLIGENCE

Class: AIML
Semester: IV
Academic year: 2024-25

Max. Marks: 30
Duration: 90 Min.
Date: 27th March 2025

All the Questions are compulsory

S.No.	Part A (10M)	Marks	BT	CO
1	Give the structure of an agent.	2	1	2
2	What are perfect and imperfect games with examples?	2	2	
3	Mention any two applications of AI	2	2	1
4	Differentiate between informed and uninformed search techniques.	2	2	1
5	List out the issues of hill climbing algorithm	2	1	2
	Part B (20M)			
6 a)	Write A* algorithm and explain with an example.	5	2	1
b)	Explain in detail about the types is agents with neat block diagrams.	5	2	2
7 a)	Write short notes on alpha beta pruning with an example.	5	5	1
b)	Explain about depth first iterative deepening search.	5	2	1
